## **DETAILED ACTION**

### ***Amendment Entry***

1. Applicant's amendment and response filed April 11, 2005 is acknowledged and has been entered. Claims 1, 2, and 9 have been amended. Claims 21-46 have been added. Accordingly, claims 1-46 are pending.

### ***Election/Restrictions***

2. In light of Applicant's amendment of the pending claims and addition of new claims, a further restriction requirement is warranted and has been set forth. The claims are now deemed to encompass three groups of inventions.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1-16 and 20, drawn to method of determining presence or amount of lymphocyte intracellular antibodies.
- II. Claims 17-19 and 43-46, drawn to method diagnosing and monitoring infection.

Art Unit: 1641

- III. Claims 21-42, drawn to method of detecting the presence or amount of released antibodies from lymph nodes and nodules.

The inventions listed as Groups I, II, III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Invention I lyses lymphocytes in a sample to determine the presence or amount of intracellular antibodies in the sample, Invention II determines the amount of lymphocyte associated antibodies that are formed in response to immunogen in comparison to a control to monitor extent of infection caused by the immunogen, and Invention III obtains samples from lymph nodes, nodules, or glands and detects for the presence of released antibodies therefrom.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
